

CorrespondencePicker

```
graph BT; FaceCorrespondencePicker --> CorrespondencePicker; PointCorrespondencePicker --> CorrespondencePicker;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'CorrespondencePicker'. Below it, two boxes are positioned side-by-side: 'FaceCorrespondencePicker' on the left and 'PointCorrespondencePicker' on the right. A horizontal line connects the top of these two boxes, and a vertical arrow points upwards from the center of this line to the bottom of the 'CorrespondencePicker' box, indicating that both subclasses inherit from the base class.
